THE manner in which the Chinese Customs are conducting their system of check on the supposed smuggling propensities of the Chinese in this Colony is becoming, if it has not previously become, "greater than we can bear." THE PARRIE Star and Herald thus delivers itself on the silly rumour that prevailed some short time ago about the Portuguete being called upon to give up Macco to the Chinese :--

COL GORDON'S VISIT TO CHINA.

Colonel Gordon arrived here this after-

noon by the P. & O. steamer Ravenna, and proceeds as far as Aden by the same steamer, or her connections, after which his movements are, up to the present moment, uncertain. Nine-tenths of what has been published editorially, by correspondents' letters, and as items of local news in the newspapers of North Chins, is mere bazaar-"gup." The only fair rendering of his past movements and present intenti ne, judging from what we have been informed in personal interview with the gallant Colonel, is contained in a long local paragraph which appears in the N.-C. D. News to hand today, which must have been written on the same basis of information as that we ourselves found our statements upon. There has been a great deal said about the Inspector General of Customs (Mr Robert Hart, C.M.G.) having written something to Col. Gordon which changed to a very great extent the Colonel's plans and objects. For this idea there is no foundation whatever. When Colonel Gordon arrived at Chefoo, it is true, he received a letter from Mr Hart, embodying a suggestion that it would not be altogether wise or advisable on his part to pay a visit to Li Hung-chang, and that if he did, it should be merely a ceremonious convicted, on April 17th, when he was convisit, the Colonel immediately going on to Peking. In nothing that Mr Hart has done has there been anything approaching an at of some iron, to pay \$20 or suffer two tempt to control Col. Gordon's movements | months' hard labour. or to unduly suggest what the course was which he should pursue; and at the present moment Mr Robert Hart and Colonel Gordon are as staunch friends as ever they were. They are believers in different policies. The Inspector-General of Customs has long advocated the policy of the centralisation of the military and naval power of the Empire in the Peking Government, thereby weakening the provincial Governments, and this is a policy at complete variance with Colonel Gordon's views of what that the Central Government is too weak, fickle, and rotten to be strengthened and that the "strengthening" should be given to the Provincial Governments. He points out to the Chinese Government how powerful they might be with strong Provincial Governments, and how powerless they are with weak Provincial Governments. Col. Gordon utterly disclaims any suggestion of an act erroneously attributed, most probably in ignorance of the facts, by some of the newspapers, to Mr Hart,that he did something; in some way approaching an attemtp to "burke" his (Col. Gordon's) opinions. Mr Hart did his duty and no more. And in the same way, Col. Gordon says, Sir Thos. Wade behaved in a manly and straightforward way. It was his desire to prevent any outbreak of hostilities or breach of peace or I It was at Sha U Chung. straining of friendly relations between Russia and England; and in pursuance of this object he give Col. In these unsettled times when war or no war is apparently as uncertain as the turn up of a colu, and trade in consequence is unusually dull, still landed property on this settlement is increasing in value. A few weeks ago, the last remaining unoccupied lot of land with a bund frontage belonging to a Medical Officer in the British Army, was sold for 1,800 lientsin Taels. The buyers were, I believe, Japanese merchants. It is not a log time since. even when business was more steady and flourishing, that perhaps this same piece of property might have been parted with for SIR THOMAS WADE AND THE about half what it has now realis d.

In these times, might I venture to auggest to the good people down South, who usually so promptly and freely kive telegraphic news of the departure of a mail steamer from Hongkong bound Northinstead of telling people "she has so many chests of opium"-to say how many passengers, or how many bales of ahirtings, or even how many cases of claret. These test ree items of news would, I think, interest fully more than fifty times the number of people who care to know that the sumething is coming with the mails, and so many chests of opium. The last piece o. information is considered important perhaps by a few at Shaughal, and by one or to the possible employments of British two gentlemen of the Hebraw persuasion in some of the different out ports; and it is given such prominence to in the pipers, that it tends to make them think, and probably the anti-opium agitators toothat the opium question is one of world. wide interest and iniquity, and it is neither one or the other. NEUTRALITY OF BRITISH SUBJECTS.

A Notification has been issued by H. B. M.'s Consul at Shanghai, from Si Thomas Wade, K.U.B., for general in formation, as follows:-

PERING, 6th August, 1880. SIR.—In various letters or articles containing speculations upon the contingency of a war between China and is Foreign Power, that have appeared in the local newspapers or elsewhere of late. reference has been made more _aan once subjects in the Chinese army or navy. I could have wished much that has been written on this subject unsaid, for while, on the one hand, speculations of

the kind is calculated to excite false hopes, it is as likely on the other to produce a feeling of irritation. My purpose, however, is not the criticism of opinions that this publicist or that may hold or express, but to remind such of Her Majesty's subjects as may take an interest in the question of military service in China, of the existence of certain regulations which I think

have perhaps been overlooked by the writers of the papers to which I allude. I beg to refer you to Section VI of

the Order in Council, 1865, for the Government of Her Majesty's subjects in China and Japan, the Section relating Despatch, appending to it a reprint of Paragraphs 81 and 82 of the Order. which prohibit, under serious penalties, engagement, whether for or against the Emperor of China, in war between His Imperial Majesty and any enemy, domes-

By the concentration of stocks of Bengal Onium the rates for the drug stiffened on the departure of last mail. Since then, he tone of the market continued steady, thong, there has been a wide range o rates for New Patna in particular, for the right of selecting chests. Although the local demand for Benares has been somewhat slack, holders of the drug have continued firm, in anticipation of large calls for it from the Coast. Of Old Patna but a score of chests have been moved off at a better figure than that last quoted, The present quotations are \$680 to \$6371 for New Patus and \$6011 to \$6021 for Benares. The quotation of \$615 to \$620 for Old Patna cannot be much relied upon, The receipts for the month remain as last noted, 8570 chests. During the interval some 750 chests have been taken by the local consumers, against 1, 00 chests at the corresponding interval last year. This, with the exportations, leaves the available supply computed at 2,750 chests, against 1,550 chests at the corresponding period last year. Of this last quantity James', London,(s) 1 450 chests were Benares, of which kind the present stock comprises a similar quantity. Of Old Patns the stock is rendered at 650 chests, included in the abovestated quantity of 2750 chests.

THE GREATEST WONDER OF MODERN TIMES!

Long experience has proved these famous remedies to be most effectual in curing either the dangerous maladies or the slighter complaints which are more particularly in-cidental to the life of a miner, or to those living in the Occasional doses of these Pills will guard the system against those evils which so often beset the human race, viz: -chughs, colds, and all disorders of the liver and stomach—the frequent forerunners of fever, dysentery, diarrhua, and cholera.

Is the most effectual remedy for old sores, wounds ulcers, rheumatism, and all skin diseases; in fact, when used according to the printed directions, it never fails to cure alike, deep and superficial ailments.

These Medicines may be obtained from all respectable Druggists and Store keepers throughout the civilised world, with directions for use in almost every language. They are prepared only by the Proprietor, Thomas Holloway, 533, Oxford Street, London. *. Beware of counterfeits that may emanate from the United States.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octave pages, eccasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Por-tuguese, are admissible. Endeavours are made to present a resume in each Emu number of the contents of the most recent works bearing on Chinese matters. Great Foki attention is also paid to the Review Hae-

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for aformation, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. lecture on Chinese Footry in this volume is alone worth the price of the Review. Address China Review, Hongkong. - Northern

Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the John M. Clerk 8 c Conant Amer. bqe. accumulation of important stores of inform-John R. Stanbope..... 3 k Pillsbury Amer. bqe. ation, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, Rev. E. J. Eitel, to which the place of summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also Hermino distinguished by its literary grace. Beside Laskar notices of new books relating to China and Tek Li. the East, which will be a useful feature of Trio. the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions China on Chinese subjects may evoke a similar Chin-tung degree of literary zeal to that which was Yungching displayed during the lifetime of its prede-cessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octave magazine.
